Ayco

Ayco, also known as **Ayco "The Selfish One"**, is a witcher, of whom, like other members of the School of the Rat, no true information is available. According to rumors, **Ayco** belonged to the group of 20 members that would give birth to the School of the Cat. Who much later, between the years 990 and 1169, when he saw the "degeneration" of his school and how its reputation was getting worse and worse, decided to take the members who agreed with him and split up, thus giving rise to the School of the Rat. A more professional version of what the Cats once were.

"The Selfish One" 🖉

It is unknown where his nickname comes from. According to the story, it came about because no one listened to his suggestions for reforming the school. Increasingly acquiring a feeling of superiority, and how only he, could solve the problems they suffered. Something that would lead to his weariness at a certain point, and together with the few witchers who agreed with him, would give rise to the School of the Rat. Taking that animal as a symbol, as a reminder not

to "degenerate" as the Cats did.
